PROFESSIONAL SUMMARY

I am a passionate B.Tech student specializing in Machine Learning, with hands-on experience in Python, data analysis, and AI. I enjoy building intelligent systems, solving real-world problems using data, and continuously learning new technologies. I am seeking opportunities to apply my skills in a dynamic, growth-oriented environment

EDUCATION

Bachelor of Technology

Gautam Buddha University | GPA: 7.2

PROJECTS

IPL MATCH Probability Prediction

[Demo](#)

Technologies: Python, Machine learning, streamlit

A scalable backend system for an e-commerce application, handling core business logic and data management.

Movie Recommendation System

[Demo](#)

Technologies: Python, Api Integration, Machine learning, Streamlit, python (libraries)

A desktop application to manage student data, courses, and grades efficiently.

AI-Powered Maternal & Fetal Health Prediction System

[Demo](#)

Technologies: API Integration, Machine learning, Deep Learning, streamlit,

Stock Market Search Engine

[Demo](#)

Technologies: Web Scrolling, Api Integration, JavaScript, HTML, CSS

MY PORTFOLIO

[Demo](#)

Technologies: Data structure, JavaScript, CSS, HTML , python, Machine learning ,

SKILLS

Python • Java • Data Structures • Algorithms • Git • SQL • Web Development Basics (HTML, CSS, JavaScript) • Operating Systems • Database Management Systems • Machine learning • Data analytics • Deep learning • Streamlit • Llm

CERTIFICATIONS

Machine learning

TCA NOIDA | Jan 2023

SEBI Investor Certificate

NISM | Jan 2025

Basic of Excel

LLA PROFESSIONAL Institute | Jan 2022

Business Analyst

Finology Quest | Jan 2025
